Home: Welcome to the Urban Transportation Data and Information Systems Committee (ABJ30) homepage.

Scope and Mission: This committee is interested in the design, collection, analysis and reporting of transportation supply and demand data needed to support urban and metropolitan transportation planning efforts. In particular, the committee is interested in new and innovative techniques for measuring and monitoring the performance of metropolitan transportation systems; and in evaluating changes in demographic and urban travel characteristics. In terms of household and other transportation surveys, the committee is concerned with the analysis, repair, reporting, archiving and dissemination of results and data products.

Subcommittees:

- Census Data for Transportation Planning (ABJ301)
- Archived Data Users Service (AFD301)

Announcements:

- Midyear meeting: Seattle, WA, July 19 - 21, 2009

Action Items:

- Review draft 2009 Annual Meeting Minutes

Welcome to the Urban Transportation Data and Information Systems Committee (ABU30) homepage.

Scope and Mission
This committee is interested in the design, collection, analysis and reporting of transportation supply and demand data needed to support urban and metropolitan transportation planning efforts. In particular, the committee is interested in new and innovative techniques for measuring and monitoring the performance of metropolitan transportation systems, and in evaluating changes in demographic and urban travel characteristics. In terms of household and other transportation surveys, the committee is concerned with the analysis, repair, reporting, archiving and dissemination of results and data products.
The committee is interested in the effective use of census and other federal, secondary data sources in metropolitan transportation planning. The committee is concerned with advancements in information systems and information technology for the improved dissemination and sharing of knowledge about metropolitan transportation systems and urban travel behavior. Critical in this interchange of information is the need for common standards and appropriate recommendations for such data exchange, including such integrating technologies as the Internet and Geographic Information Systems.

TRB's Urban Transportation Data and Information Systems Committee (ABJ30)

Home > Friends List

To better serve our committee members and keep them informed of committee activities we have developed a simple listserv. The listserv is open to the public but does require that you sign up to post. For a list of official committee members you can [view](#).

To help with spam protection your post must come from the email address that is on the subscription list. If it does not, there may be a slight delay until the list moderator can review and approve it.

To Subscribe to ABJ30-Friends go to:
<http://www.chrispy.net/mailman/listinfo/abj30-friends>

To Unsubscribe from ABJ30-Friends go to:
<http://www.chrispy.net/mailman/listinfo/abj30-friends>

To Post a Message to ABJ30-Friends:
Send email To: abj30-friends@chrispy.net
Note: This is a closed list which means that people who are not subscribed are blocked from posting directly to the list.

To Review Past Messages (Read the Archive):
<http://www.chrispy.net/pipermail/abj30-friends>
The archive is open to the public for viewing and does not need a password or registration.

ABJ30-Friends is the name of our FRIENDS mailing list. The backbone software is called mailman. The mailing list is maintained as a volunteer effort by [Chris Pannello](#) who has it running on a personal server called [chrispy.net](#). [Ed Christopher](#), acting on behalf of the Urban Data and Information Systems Committee is responsible for the policy direction (the rules) of the list. The content of the list is the responsibility of those who mail to it and use it.

ABJ30-Friends was created for and thrives on the input of its members (subscribers). If you have an interest in the transportation aspects of data used regarding urban issues this list is for you.

If you are having problems subscribing, unsubscribing or posting messages, please contact Ed Christopher at: ed@benwynet.com

After signing in, the Create and Edit page button appear

The site is a wiki, so editing pages is easy

Edit Page Toolbar

Use the edit toolbar to edit the page, add links, etc

The page history feature means changes can be rolled back (i.e. you have an editing undo feature)

What additional content does it need?

- 1) *Guide to Guidebooks Page (ACS, travel surveys, etc)*
- 2) *Links to Data and Applications (NHTS transferability page, Census links, etc)*
- 3) *Open source tools (TRANSIMS population synthesizer, etc)*
- 4) *Cross cutting page with other committees*
- 5) *GHG data needs*
- 6) *Getting ready for the annual meeting*
- 7) *Research statements!*
- 8) *Others?*

Please visit and add to our website! We'll help you too!

Questions/Suggestions? Thanks!
